Supplemental Reporting of Non-GAAP Results of Operations. M&T consistently provides supplemental reporting of its results on a "net operating" or "tangible" basis, from which M&T excludes the after-tax effect of amortization of core deposit and other intangible assets (and the related goodwill, core deposit intangible and other intangible asset balances, net of applicable deferred tax amounts) and expenses associated with merging acquired operations into M&T, since such items are considered by management to be "nonoperating" in nature. The amounts of such "nonoperating" expense are presented in the tables that accompany this release. Although "net operating income" as defined by M&T is not a GAAP measure, M&T's management believes that this information helps investors understand the effect of acquisition activity in reported results.

Diluted net operating earnings per common share were \$2.24 in the recent quarter, compared with \$2.13 and \$2.38 in 2016's third quarter and the second quarter of 2017, respectively. Net operating income was \$361 million in the third quarter of 2017, compared with \$356 million in the corresponding quarter of 2016 and \$386 million in the second quarter of 2017. Expressed as an annualized rate of return on average tangible assets and average tangible common shareholders' equity, net operating income was 1.25% and 13.03%, respectively, in the third quarter of 2017, compared with 1.18% and 12.77%, respectively, in the year-earlier quarter and 1.33% and 14.18%, respectively, in the second quarter of 2017.

Taxable-equivalent net interest income in the recent quarter rose 2% from \$947 million in the second quarter of 2017. As compared with 2017's second quarter, a 12% rise in mortgage banking revenues during the recent quarter was offset by a decline in credit-related fees.
