M&T Bank Corporation Announces Third Quarter Results

BUFFALO, N.Y., Oct. 20, 2021 -- M&T Bank Corporation ("M&T") (NYSE: MTB) today reported its results of operations for the quarter ended September 30, 2021.

GAAP Results of Operations. Diluted earnings per common share measured in accordance with generally accepted accounting principles ("GAAP") were \$3.69 in the third quarter of 2021, up from \$2.75 in the year-earlier quarter and \$3.41 in the second quarter of 2021. GAAP-basis net income was \$495 million in the recent quarter, \$372 million in the third quarter of 2020 and \$458 million in the second 2021 quarter. GAAP-basis net income for the third quarter of 2021 expressed as an annualized rate of return on average assets and average common shareholders' equity was 1.28% and 12.16%, respectively, improved from 1.06% and 9.53%, respectively, in the similar 2020 period and 1.22% and 11.55%, respectively, in the second quarter of 2021. Included in noninterest expenses in the recent quarter were merger-related expenses associated with M&T's proposed acquisition of People's United Financial, Inc. of \$9 million (\$7 million after tax-effect, or \$.05 of diluted earnings per common share), compared with \$4 million (\$3 million after tax-effect, or \$.02 of diluted earnings per common share) in the second quarter of 2021. There were no merger-related expenses in the third quarter of 2020.

Darren J. King, Executive Vice President and Chief Financial Officer, commented on M&T's third quarter results, "Results in the recent quarter reflect the strength of M&T's diversified business model. Fee income was robust, driven by strong mortgage banking, trust and brokerage, and other payments revenue relative to the year-earlier and immediately preceding quarters. Higher expense levels, notably incentive compensation and other professional services costs, were largely associated with the increased revenue but also reflect a reversion to more normal levels. Our balance sheet remains strong, as evidenced by a Common Equity Tier 1 Capital Ratio of 11.1% at September 30, 2021, improved from 10.7% at the end of the second quarter."

For the first nine-months of 2021, diluted earnings per common share rose 62% to \$10.43 from \$6.42 in the year-earlier period. GAAP-basis net income for the nine-month period ended September 30, 2021 increased to \$1.40 billion from \$882 million in the corresponding 2020 period. Expressed as an annualized rate of return on average assets and average common shareholders' equity, GAAP-basis net income in the nine-month period ended September 30, 2021 was 1.24% and 11.76%, respectively, improved from .89% and 7.57%, respectively, in the corresponding 2020 period. Merger-related expenses for the first nine months of 2021 were \$23 million (\$17 million after tax-effect, or \$.13 of diluted earnings per common share). There were no merger-related expenses in the similar period of 2020.

Supplemental Reporting of Non-GAAP Results of Operations. M&T consistently provides supplemental reporting of its results on a "net operating" or "tangible" basis, from which M&T excludes the after-tax effect of amortization of core deposit and other intangible assets (and the related goodwill and core deposit and other intangible asset balances, net of applicable deferred tax amounts) and expenses associated with merging acquired operations into M&T (when incurred), since such items are considered by management to be "nonoperating" in nature. The amounts of such "nonoperating" expenses are presented in the tables that accompany this release. Although "net operating income" as defined by M&T is not a GAAP measure, M&T's management believes that this information helps investors understand the effect of acquisition activity in reported results.

Diluted net operating earnings per common share were \$3.76 in the recent quarter, up from \$2.77 and \$3.45 in the third quarter of 2020 and the second quarter of 2021, respectively. Net operating income totaled \$504 million in 2021's third quarter, \$375 million in the third quarter of 2020 and \$463 million in the second quarter of 2021. Expressed as an annualized rate of return on average tangible assets and average tangible common shareholders' equity, net operating income in the recent quarter was 1.34% and 17.54%, respectively, 1.10% and 13.94%, respectively, in the year-earlier quarter and 1.27% and 16.68%, respectively, in the second quarter of 2021.

Diluted net operating earnings per common share during the first nine months of 2021 increased to \$10.61 from \$6.49 in the similar 2020 period. Net operating income during the nine-month periods ended September 30, 2021 and 2020 was \$1.42 billion and \$891 million, respectively. Net operating income expressed as an annualized rate of return on average tangible assets and average tangible common shareholders' equity was 1.30% and 17.10%, respectively, in the first nine months of 2021 and was .93% and 11.15%, respectively, in the corresponding 2020 period.

Taxable-equivalent Net Interest Income. Net interest income expressed on a taxable-equivalent basis totaled \$971 million in the recent quarter, up from \$947 million in the third quarter of 2020 and \$946 million in the second 2021 quarter. The recent quarter improvement as compared with the year-earlier quarter was largely due to lower rates paid on deposit accounts offset, in part, by the impact of lower average outstanding loan balances. As compared with the second quarter of 2021, the higher net interest income in the recent quarter was predominantly the result of increased yields on loans, reflecting fees received from payoffs of Paycheck Protection Program ("PPP") loans. The net interest margin in the third quarter of 2021, the third quarter of 2020 and the second quarter of 2021 was 2.74%, 2.95% and 2.77%, respectively. The lower net interest margin in the two most recent quarters reflects higher amounts of low-yielding balances at the Federal Reserve Bank of New York. Those balances add to net interest income, but lower the reported net interest margin. Interest income from PPP loans, including recognition of fees associated with repaid loans, was \$71 million in the recent quarter, compared with \$39 million in the second quarter of 2021 and \$51 million in the second quarter of 2021.

<u>Provision for Credit Losses/Asset Quality</u>. Recaptures of the provision for credit losses of \$20 million and \$15 million were recorded in the third and second quarters of 2021, respectively. The provision for credit losses totaled \$150 million in the third quarter of 2020. The provision in each quarter adjusts the allowance for credit losses to reflect expected losses that are based on economic forecasts as of each quarter-end date. Net loan charge-offs were \$40 million during the recent quarter, compared with \$30 million in the third quarter of 2020 and \$46 million in the second quarter of 2021. Expressed as an annualized percentage of average loans outstanding, net charge-offs were .17% and .12% in the third quarters of 2021 and 2020, respectively, and .19% in the second quarter of 2021.

Loans classified as nonaccrual totaled \$2.24 billion at each of September 30, 2021 and June 30, 2021, compared with \$1.24 billion at September 30, 2020. As a percentage of loans outstanding, nonaccrual loans were 2.40%, 2.31% and 1.26% at September 30, 2021, June 30, 2021 and September 30, 2020, respectively. The increase in nonaccrual loans from September 30, 2020 to the two most recent quarter-ends reflects the continuing impact of the pandemic on borrowers' ability to make contractual payments on their loans, most notably loans in the hospitality sector. Assets taken in foreclosure of defaulted loans were \$25 million at September 30, 2021, \$50 million a year earlier and \$28 million at June 30, 2021.

Allowance for Credit Losses. M&T regularly performs detailed analyses of individual borrowers and portfolios for purposes of assessing the adequacy of the allowance for credit losses. As a result of those analyses, the allowance for credit losses totaled \$1.52 billion or 1.62% of loans outstanding at September 30, 2021, compared with \$1.76 billion or 1.79%

at September 30, 2020 and \$1.58 billion or 1.62% at June 30, 2021. The allowance at September 30, 2021, September 30, 2020, and June 30, 2021 represented 1.66%, 1.91%, and 1.69%, respectively, of total loans on those dates, excluding outstanding balances of PPP loans.

Noninterest Income and Expense. Noninterest income was \$569 million in the third quarter of 2021, up from \$521 million in the year-earlier quarter and \$514 million in the second quarter of 2021. As compared with the third quarter of 2020, the higher level of noninterest income in the recent quarter resulted largely from higher service charges on deposit accounts, merchant discount and credit card fees, mortgage banking revenues and income from M&T's trust and brokerage services businesses. The recent quarter's improvement as compared with the second quarter of 2021 reflects increases in mortgage banking revenues, service charges on deposit accounts, brokerage services income, credit-related fees, and lower unrealized losses on investment securities. Brokerage services income in the recent quarter included approximately \$10 million of revenues associated with the sale of select investment products of LPL Financial, an independent financial services broker. Prior to the transition of M&T's retail brokerage and certain trust customer business to LPL Financial in mid-june 2021, those customers were provided proprietary trust products managed by M&T and revenues related thereto were reported as trust income.

Noninterest expense totaled \$899 million in the third quarter of 2021, compared with \$827 million in the corresponding quarter of 2020 and \$865 million in the second quarter of 2021. Excluding expenses considered to be nonoperating in nature, such as amortization of core deposit and other intangible assets and merger-related expenses, noninterest operating expenses were \$888 million in the recent quarter, \$823 million in the third quarter of 2020 and \$859 million in 2021's second quarter. Factors contributing to the increase in noninterest operating expenses in the recent quarter as compared with the year-earlier quarter were higher costs for salaries and employee benefits (reflecting increased incentive compensation expenses), outside data processing and software, and professional services. As compared with the second quarter of 2021, the higher level of noninterest operating expenses in the recent quarter resulted largely from higher incentive compensation.

The efficiency ratio, or noninterest operating expenses divided by the sum of taxable-equivalent net interest income and noninterest income (exclusive of gains and losses from bank investment securities), measures the relationship of operating expenses to revenues. M&T's efficiency ratio was 57.7% in the third quarter of 2021, 56.2% in the year-earlier quarter and 58.4% in the second quarter of 2021.

Balance Sheet. M&T had total assets of \$151.9 billion at September 30, 2021, compared with \$138.6 billion and \$150.6 billion at September 30, 2020 and June 30, 2021, respectively. Loans and leases, net of unearned discount, were \$93.6 billion at September 30, 2021, compared with \$98.4 billion at September 30, 2020 and \$97.1 billion at June 30, 2021. The lower level of loans and leases at the recent quarter-end as compared with September 30, 2020 reflects a \$5.4 billion decline in commercial loans, partially offset by growth in consumer loans of \$1.5 billion. The lower commercial loan balances reflect declines in PPP and dealer floor plan loans. The rise in consumer loans resulted from higher balances of recreational finance and automobile loans. The decline in total loans and leases at the recent quarter-end as compared with June 30, 2021 resulted largely from lower commercial loans of \$2.9 billion. The decrease in commercial loans reflects lower balances of PPP loans. Those loans totaled \$2.2 billion at September 30, 2021, compared with \$6.5 billion at September 30, 2020 and \$4.3 billion at June 30, 2021. Total deposits were \$128.7 billion at the recent quarter-end, \$115.2 billion at September 30, 2020 and \$128.3 billion at June 30, 2021. The increased levels of deposits at the two most recent quarter-ends as compared with September 30, 2020 reflect higher levels of liquidity being maintained by many commercial and consumer customers.

Total shareholders' equity was \$17.5 billion, or 11.54% of total assets at September 30, 2021, \$16.1 billion, or 11.61% at September 30, 2020 and \$16.7 billion, or 11.10% at June 30, 2021. Common shareholders' equity was \$15.8 billion, or \$122.60 per share, at September 30, 2021, compared with \$14.9 billion, or \$115.75 per share, a year-earlier and \$15.5 billion, or \$120.22 per share, at June 30, 2021. Tangible equity per common share was \$86.88 at September 30, 2021, \$79.85 at September 30, 2020 and \$84.47 at June 30, 2021. In the calculation of tangible equity per common share, common shareholders' equity is reduced by the carrying values of goodwill and core deposit and other intangible assets, net of applicable deferred tax balances. M&T estimates that the ratio of Common Equity Tier 1 to risk-weighted assets under regulatory capital rules was approximately 11.1% at September 30, 2021, up from 10.7% three months earlier.

Additionally in the quarter, M&T Bank continued to focus on its multicultural customers in its diverse communities by establishing several multicultural banking centers across its footprint to enhance local branch experience by offering services in English and other languages. Customers can also now complete cash transactions at M&T Bank ATMs in four languages.

<u>Forward-Looking Statements</u>. This news release and related conference call may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the rules and regulations of the SEC. Any statement that does not describe historical or current facts is a forward-looking statement, including statements based on current expectations, estimates and projections about M&T's business, and management's beliefs and assumptions.

Statements regarding the potential effects of the COVID-19 pandemic on M&T's business, financial condition, liquidity and results of operations may constitute forward-looking statements and are subject to the risk that the actual effects may differ, possibly materially, from what is reflected in those forward-looking statements due to factors and future developments that are uncertain, unpredictable and in many cases beyond M&T's control, including the scope and duration of the pandemic, actions taken by governmental authorities in response to the pandemic, and the direct and indirect impact of the pandemic on customers, clients, third parties and M&T.

Also as described further below, statements regarding M&T's expectations or predictions regarding the proposed transaction between M&T and People's United Financial, Inc. ("People's United") are forward-looking statements, including statements regarding the expected timing, completion and effects of the proposed transaction as well as M&T's and People's United's expected financial results, prospects, targets, goals and outlook.

Forward-looking statements are typically identified by words such as "believe," "expect," "anticipate," "intend," "target," "estimate," "continue," or "potential," by future conditional verbs such as "will," "would," "should," "could," or "may," or by variations of such words or by similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions ("future factors") which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements.

Future factors include risks, predictions and uncertainties relating to the impact of the People's United transaction (as described in the next paragraph); the impact of the COVID-19 pandemic; changes in interest rates, spreads on earning assets and interest-bearing liabilities, and interest rate sensitivity; prepayment speeds, loan originations, credit losses and market values on loans, collateral securing loans, and other assets; sources of liquidity; common shares outstanding; common stock price volatility; fair value of and number of stock-based compensation awards to be issued in future periods; the impact of changes in market values on trust-related revenues; legislation or regulations affecting the financial services industry and/or M&T and its subsidiaries individually or collectively, including tax policy; regulatory supervision and oversight, including monetary policy and capital requirements; changes in accounting policies or procedures as may be required by the Financial Accounting Standards Board, regulatory agencies or legislation; increasing price, product and service competition by competitors, including new entrants; rapid technological developments and changes; the ability to continue to introduce competitive new products and services on a timely, cost-effective basis; the mix of products and services; containing costs and expenses; governmental and public policy changes; protection and validity of intellectual property rights; reliance on large customers; technological, implementation and cost/financial risks in large, multi-year contracts; the outcome of pending and future litigation and governmental proceedings, including tax-related examinations and other matters; continued availability of financing; financial resources in the amounts, at the times and on the terms required to support M&T and its subsidiaries' future businesses; and material differences in the actual financial results of merger, acquisition and investment activities compared with M&T's initial expectations, including the f

In addition, future factors related to the proposed transaction between M&T and People's United include, among others: the occurrence of any event, change or other circumstances that could give rise to the right of one or both of the parties to terminate the definitive merger agreement between M&T and People's United; the outcome of any legal proceedings that may be instituted against M&T or People's United; the possibility that the proposed transaction will not close when expected or at all because required regulatory or other approvals are not received or other conditions to the closing are not satisfied on a timely basis or at all, or are obtained subject to conditions that are not anticipated; the risk that any announcements relating to the proposed combination could have adverse effects on the market price of the common stock of either or both parties to the combination; the possibility that the anticipated benefits of the transaction will not be realized when expected or at all, including as a result of the impact of, or problems arising from, the integration of the two companies or as a result of the strength of the economy and competitive factors in the areas where M&T and People's United do business; certain restrictions during the pendency of the merger that may impact the parties' ability to pursue certain business opportunities or strategic transactions; the possibility that the transaction may be more expensive to complete than anticipated, including as a result of unexpected factors or events; diversion of management's attention from ongoing business operations and opportunities; potential adverse reactions or changes to business or employee relationships, including those resulting from the announcement or completion of the transaction; M&T's and People's United's success in executing their respective business plans and strategies and managing the risks involved in the foregoing; the business, economic and political conditions in the markets in which the parties operate; and other factors that may

Future factors related to the proposed transaction also include risks, such as, among others: that the proposed combination and its announcement could have an adverse effect on either or both parties' ability to retain customers and retain or hire key personnel and maintain relationships with customers; that the proposed combination may be more difficult or time-consuming than anticipated, including in areas such as sales force, cost containment, asset realization, systems integration and other key strategies; and that revenues following the proposed combination may be lower than expected, including for possible reasons such as unexpected costs, charges or expenses resulting from the transactions; as well as the unforeseen risks relating to liabilities of M&T or People's United that may exist, and uncertainty as to the extent of the duration, scope, and impacts of the COVID-19 pandemic on People's United, M&T and the proposed combination.

These are representative of the future factors that could affect the outcome of the forward-looking statements. In addition, such statements could be affected by general industry and market conditions and growth rates, general economic and political conditions, either nationally or in the states in which M&T and its subsidiaries do business, including interest rate and currency exchange rate fluctuations, changes and trends in the securities markets, and other future factors.

M&T provides further detail regarding these risks and uncertainties in its 2020 Form 10-K, including in the Risk Factors section of such report, as well as in other SEC filings. Forward-looking statements speak only as of the date made, and M&T does not assume any duty and does not undertake to update forward-looking statements.
