### **M&T Bank Corporation Announces First Quarter Results**

BUFFALO, N.Y., April 20, 2022 /PRNewswire/ -- M&T Bank Corporation ("M&T") (NYSE: MTB) today reported its results of operations for the quarter ended March 31, 2022.

GAAP Results of Operations. Diluted earnings per common share measured in accordance with generally accepted accounting principles ("GAAP") were \$2.62 in the first quarter of 2022, compared with \$3.33 in the year-earlier quarter and \$3.37 in the fourth quarter of 2021. GAAP-basis net income was \$362 million in the recent quarter, \$447 million in the first quarter of 2021 and \$458 million in the final 2021 quarter. GAAP-basis net income in the initial quarter of 2022 expressed as an annualized rate of return on average assets and average common shareholders' equity was .97% and 8.55%, respectively, compared with 1.22% and 11.57%, respectively, in the similar 2021 period and 1.15% and 10.91%, respectively, in the fourth quarter of 2021. Included in noninterest expenses in the recent quarter were merger-related expenses associated with M&T's acquisition of People's United Financial, Inc. ("People's United") of \$17 million (\$13 million after-tax effect, or \$.10 of diluted earnings per common share), compared with \$10 million (\$8 million after-tax effect, or \$.06 of diluted earnings per common share) in the year-earlier quarter and \$21 million (\$16 million after-tax effect, or \$.12 of diluted earnings per share) in the fourth quarter of 2021.

On March 4, 2022, M&T received Federal Reserve approval to acquire People's United and on April 1, 2022 closed the acquisition. Pursuant to the terms of the merger agreement, People's United shareholders received consideration valued at .118 of an M&T common share in exchange for each common share of People's United. Additionally, People's United outstanding preferred stock was converted into shares of Series H preferred stock of M&T (NYSE: MTBPrH). The purchase price totaled approximately \$8.4 billion (with the price based on M&T's close price of \$164.66 per share as of April 1, 2022). Excluding the impact of acquisition accounting adjustments, as of March 31, 2022 People's United reported total assets of approximately \$63.0 billion, total liabilities of approximately \$55.5 billion and total shareholders' equity of approximately \$7.5 billion.

Darren J. King, Chief Financial Officer, commented on M&T's results, "The first quarter results continue to reflect M&T's strong credit underwriting as evidenced by historically low charge-offs for the quarter and a stable allowance for credit losses. Revenues were in line with expectations and expenses, which include the usual seasonal increase in salaries and employee benefits expense, were prudently managed. Our capital position remains very strong with an estimated Common Equity Tier 1 ratio of 11.6%, compared with 11.4% at last year's end. We were excited to close the People's United merger and look forward to working together with our new colleagues to expand our premier banking franchise."

Supplemental Reporting of Non-GAAP Results of Operations. M&T consistently provides supplemental reporting of its results on a "net operating" or "tangible" basis, from which M&T excludes the after-tax effect of amortization of core deposit and other intangible assets (and the related goodwill and core deposit and other intangible asset balances, net of applicable deferred tax amounts) and expenses associated with merging acquired operations into M&T (when incurred), since such items are considered by management to be "nonoperating" in nature. The amounts of such "nonoperating" expenses are presented in the tables that accompany this release. Although "net operating income" as defined by M&T is not a GAAP measure, M&T's management believes that this information helps investors understand the effect of acquisition activity in reported results.

Diluted net operating earnings per common share were \$2.73 in the first quarter of 2022, compared with \$3.41 in the year-earlier quarter and \$3.50 in the fourth quarter of 2021. Net operating income aggregated \$376 million in the recent quarter, \$457 million in the first quarter of 2021 and \$475 million in 2021's fourth quarter. Expressed as an annualized rate of return on average tangible assets and average tangible common shareholders' equity, net operating income in the first quarter of 2022 was 1.04% and 12.44%, respectively, 1.29% and 17.05%, respectively, in the similar quarter of 2021 and 1.23% and 15.98%, respectively, in the fourth quarter of 2021.

<u>Taxable-equivalent Net Interest Income</u>. Net interest income expressed on a taxable-equivalent basis totaled \$907 million in the recent quarter, compared with \$985 million in the first quarter of 2021 and \$937 million in the fourth quarter of 2021. The decrease compared with the earlier quarters reflects lower outstanding average loan balances, including significantly reduced balances of loans made under the Paycheck Protection Program ("PPP"). Two fewer days in the recent quarter also contributed to the reduced net interest income as compared with 2021's fourth quarter. Average loans outstanding and the net interest margin were \$92.2 billion and 2.65%, respectively, in the first quarter of 2022, compared with \$99.4 billion and 2.97%, respectively, in the year earlier quarter and \$93.3 billion and 2.58%, respectively, in the fourth quarter of 2021. Outstanding PPP loans averaged \$870 million in 2022's first quarter, compared with \$5.73 billion in the first quarter of 2021 and \$1.65 billion in the fourth quarter of 2021.

<u>Provision for Credit Losses/Asset Quality</u>. The provision for credit losses was \$10 million in the recent quarter, compared with provision recaptures of \$25 million and \$15 million recorded in the first and fourth quarters of 2021, respectively. Net loan charge-offs were \$7 million in the first quarter of 2022, greatly improved from \$75 million in the first quarter of 2021 and \$31 million in 2021's final quarter. Expressed as an annualized percentage of average loans outstanding, net charge-offs were .03% and .31% in the first quarters of 2022 and 2021, respectively, and .13% in the fourth quarter of 2021.

Loans classified as nonaccrual totaled \$2.13 billion at March 31, 2022, up from \$1.96 billion at March 31, 2021 and \$2.06 billion at December 31, 2021. Nonaccrual loans a percentage of total loans were 2.32% at the recent quarter-end, compared with 1.97% a year earlier and 2.22% at December 31, 2021. Assets taken in foreclosure of defaulted loans were \$24 million at each of March 31, 2022 and December 31, 2021, compared with \$30 million at March 31, 2021.

Allowance for Credit Losses. M&T regularly performs comprehensive analyses of its loan portfolios and assesses forecasted economic conditions for purposes of determining the adequacy of the allowance for credit losses. As a result of those procedures, the allowance for credit losses totaled \$1.47 billion or 1.60% of loans outstanding at March 31, 2022, compared with \$1.64 billion or 1.65% at March 31, 2021 and \$1.47 billion or 1.58% at December 31, 2021. The allowance at March 31, 2022, March 31, 2021, and December 31, 2021 represented 1.61%, 1.75%, and 1.60%, respectively, of total loans on those dates, excluding outstanding balances of PPP loans.

Noninterest Income and Expense. Noninterest income totaled \$541 million in the first quarter of 2022, up from \$506 million in the year-earlier quarter. That increase was reflective of higher trust income, service charges on deposit accounts, brokerage services income, as well as a \$30 million distribution from Bayview Lending Group LLC, partially offset by decreased mortgage banking revenues that reflect the impact of M&T's decision to retain recently originated mortgage loans in portfolio rather than sell such loans. Noninterest income was \$579 million in last year's fourth quarter. The comparative decline in the recent quarter was predominantly the result of the decreased mortgage banking revenues.

Noninterest expense totaled \$960 million in the first quarter of 2022, compared with \$919 million in the similar quarter of 2021 and \$928 million in the fourth quarter of 2021. Excluding expenses considered to be nonoperating in nature, such as amortization of core deposit and other intangible assets and merger-related expenses, noninterest operating expenses were \$941 million in the recent quarter, \$907 million in the first quarter of 2021 and \$904 million in 2021's fourth quarter. Factors contributing to the increase in noninterest operating expenses in the recent quarter as compared with the year-earlier quarter were higher costs for salaries and employee benefits (including increased incentive compensation expenses), outside data processing and software, offset by lower pension-related expenses. As compared with the fourth quarter of 2021, the increased level of noninterest operating expenses in the recent quarter resulted largely from seasonally higher salaries and employee benefits, including increased stock-based compensation, payroll-related taxes and other employee benefits, partially offset by lower pension-related and professional services costs.

The efficiency ratio, or noninterest operating expenses divided by the sum of taxable-equivalent net interest income and noninterest income (exclusive of gains and losses from bank investment securities), measures the relationship of operating expenses to revenues. M&T's efficiency ratio was 64.9% in the first quarter of 2022, 60.3% in the year-earlier quarter and 59.7% in the fourth quarter of 2021.

Balance Sheet. M&T had total assets of \$149.9 billion at March 31, 2022, compared with \$150.5 billion and \$155.1 billion at March 31, 2021 and December 31, 2021, respectively. Loans and leases, net of unearned discount, were \$91.8 billion at March 31, 2022, compared with \$99.3 billion at March 31, 2021 and \$92.9 billion at December 31, 2021. The lower level of loans and leases at the recent quarter-end as compared with the earlier dates noted is largely a reflection of declines in balances of PPP loans outstanding. PPP loans totaled \$592 million at March 31, 2022, down from \$6.2 billion at March 31, 2021 and \$1.2 billion at December 31, 2021. Total deposits were \$126.3 billion at the recent quarter-end, \$128.5 billion a year earlier and \$131.5 billion at December 31, 2021.

Total shareholders' equity was \$17.9 billion at each of March 31, 2022 and December 31, 2021, or 11.93% and 11.54% of total assets, respectively, and \$16.4 billion, or 10.93% at March 31, 2021. Common shareholders' equity was \$16.1 billion, or \$124.93 per share, at March 31, 2022, compared with \$15.2 billion, or \$118.12 per share, a year-earlier and \$16.2 billion, or \$125.51 per share, at December 31, 2021. Tangible equity per common share was \$89.33 at March 31, 2022, \$82.35 at March 31, 2021 and \$89.80 at December 31, 2021. In the calculation of tangible equity per common share, common shareholders' equity is reduced by the carrying values of goodwill and core deposit and other intangible assets, net of applicable deferred tax balances. M&T estimates that the ratio of Common Equity Tier 1 to risk-weighted assets under regulatory capital rules was approximately 11.6% at March 31, 2022, up from 11.4% three months earlier and 10.4% at March 31, 2021.
